Microsoft O365

As a managed cloud service provider, we help you to drive forward with your “digitalization” and effectively exploit the potential of the cloud. This includes O365 projects and O365 as a component in your multi-cloud solution. O365 as a managed service and as an essential component opens up numerous possibilities. We have the expertise to determine the best possible use for your individual requirements, provide you with comprehensive advice in this regard, operate all elements of your solution and subsequently expand and optimize your usage. All this without having to employ specialists and in a way that allows you to focus on your core business. Use Excel, Word, PowerPoint and email from any device at any time, maximum security through fully automatic updates, collaboration tools such as SharePoint, comprehensive policy options and many other services and customized added value – we are the people to contact!
